Experience

SINCE
/2024

INDEPENDENT CONSULTING · HEALTH-TECH & WORKPLACE
WELLNESS

Product Design & Engineering Consultant

Confidential Healthcare Practice-Management
Platform

2024 — PRESENT

Pre-launch SaaS platform for clinics and healthcare providers, spanning practice management, staff operations and patient self-service across responsive web and React Native. Designed the brand and end-to-end product experience, then built most of the platform: roughly 180 routes, a documented design system, and 100+ clinical and administrative forms. Expanded into full-stack ownership, leading the Parse to Supabase migration across a database of about 200 tables.

Amplify · Global Health Solutions

2025 — 2026

Lead product designer and front-end consultant on an AI-enabled workplace wellness concept combining personalized health guidance, employee benefits, onsite services and rewards. Owned the complete brand and design system, designed the employee-mobile and employer-administration experiences, and independently established the initial React Native front end.

/2019
/2024

SEEDWELL · FINTECH

Co-Founder & Head of Engineering

A B2B2C platform combining employee financial wellness, payroll-based automation and neobanking. Owned brand and product design direction, built nearly all front-end experiences, led front-end architecture and managed junior developers. 14 partner pilots and seven signed contracts, roughly 135,000 potential users.

/2019

DBRAND · E-COMMERCE

UI/UX Designer

Redesigned and shipped customer-facing storefront pages for a direct-to-consumer device-customization brand, designing and coding selected experiences in HTML, CSS and vanilla JavaScript.

/2017
/2019

ZOOCASA · REAL ESTATE

UI/UX Designer & Front-End Developer

Designed and implemented consumer property search, listing and market-insight experiences, building front-end features in Ember.js — the first role where design and implementation sat with the same person.

Earlier work

/2015
/2017

PRELOOK · STARTUP

UI/UX Lead Designer

Sole designer for an employer-discovery startup: the product experience, company-profile system, website and brand assets, from early concept through high-fidelity interfaces.

EDUCATION & PROFESSIONAL DEVELOPMENT

/2017

GENERAL ASSEMBLY CANADA · FORMERLY BITMAKER

Web Development Immersive

Full-stack development. An intensive nine-week, 400+ hour program covering HTML, CSS, JavaScript, jQuery, Ruby and Ruby on Rails.

/2010
/2014

TORONTO METROPOLITAN UNIVERSITY · FORMERLY RYERSON

Bachelor of Interior Design, B.I.D.

Where the habit of thinking in systems started: how people move through a space, and what a system of parts has to hold up under.

PRODUCT

Product strategy, zero-to-one development, UX/UI, information architecture, interaction design, design systems, responsive and mobile UX, branding, Figma.
