Experience

SINCE
/2024

INDEPENDENT CONSULTING · HEALTH-TECH & WORKPLACE
WELLNESS

Product Design & Engineering Consultant

Confidential Healthcare Practice Management Platform 2024 — PRESENT

Pre-launch SaaS platform for clinics and healthcare providers, spanning practice management, staff operations and patient self-service across responsive web and React Native. Designed the brand and end-to-end product experience, then built most of the large-scale platform across admin, staff, and patient surfaces, a codebase UI style guide with starter Figma components, and clinical and administrative forms throughout. Expanded into full-stack ownership, leading the Parse to Supabase migration.

Amplify · Global Health Solutions 2025 — 2026

Lead product designer and front-end consultant on a workplace wellness product designed around AI-enabled personalization, combining personalized health guidance, employee benefits, onsite services, and rewards. Owned the complete brand and design system, designed the employee mobile and employer administration experiences, and independently built the initial React Native front end.

/2019
/2024

SEEDWELL · FINTECH

Co-Founder & Head of Engineering

Led product design and front-end engineering across two related fintech products: Seedwell, an employer-sponsored financial wellness and automated banking platform, and LegacyAI, a direct-to-consumer extension. Owned brand and product design direction, built nearly all front-end experiences, led front-end architecture, and managed junior developers.

/2019

DBRAND · E-COMMERCE

UI/UX Designer

Redesigned and shipped customer-facing storefront pages for a direct-to-consumer device-customization brand, coding selected experiences in HTML, CSS, and vanilla JavaScript.

/2017
/2019

ZOOCASA · REAL ESTATE

UI/UX Designer & Front-End Developer

Designed and implemented consumer property-search, listing, and market-insight experiences, building front-end features in Ember.js and bridging product design and implementation within a single role.

Earlier work

/2015
/2017

PRELOOK · STARTUP

UI/UX Lead Designer

Sole designer for an employer-discovery startup, owning the product experience, company-profile system, website, and brand assets from early concept through high-fidelity interfaces.

EDUCATION & PROFESSIONAL DEVELOPMENT

/2017

BITMAKER · NOW GENERAL ASSEMBLY CANADA

Web Development Immersive

Intensive nine-week full-stack development program covering HTML, CSS, JavaScript, jQuery, Ruby, and Ruby on Rails.

/2010
/2014

TORONTO METROPOLITAN UNIVERSITY · FORMERLY RYERSON

Bachelor of Interior Design, B.I.D.

Where my systems-design mindset began: understanding how people move through spaces and how individual components work together as a whole.

CAPABILITIES

PRODUCT
